

Conveyor systems for filling silos and bunkers

Rigid spiral conveyor system
Special solutions
Type SG

STEINER[®]
Spiral conveyor systems

2021

*Precision from
a single source.*

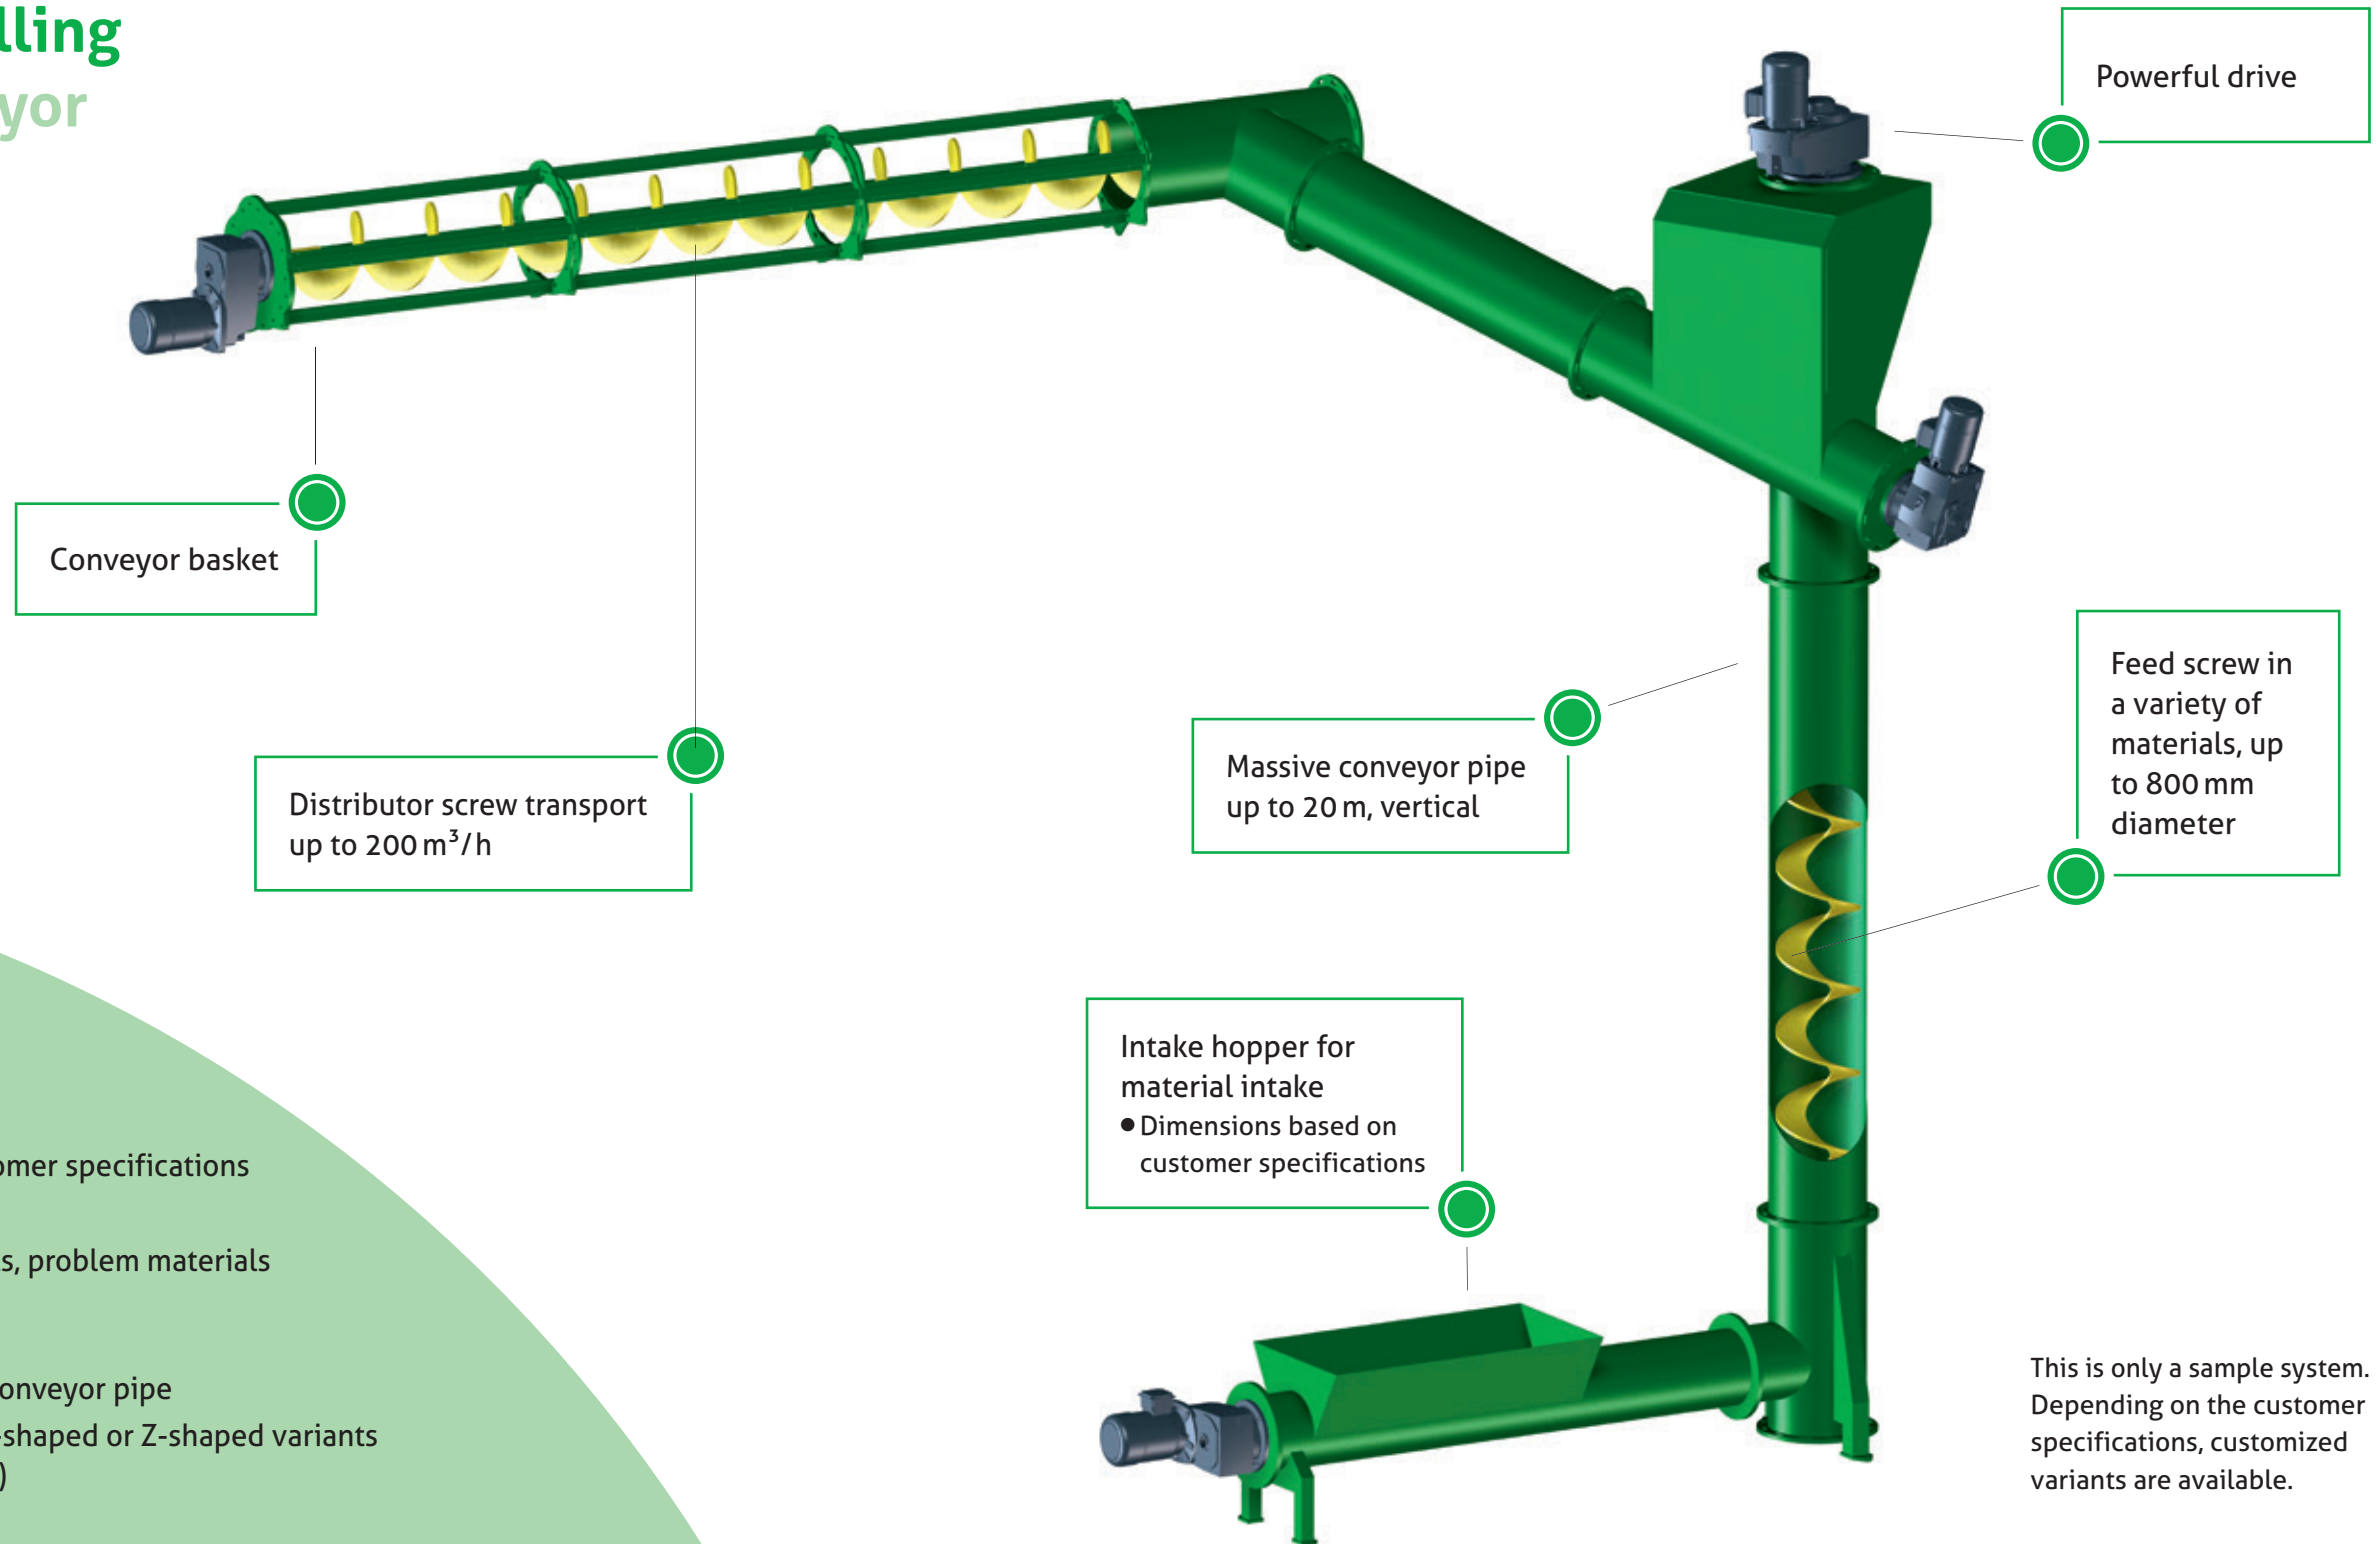

STEINER®
Spiral conveyor systems

Our customized systems are always planned and developed based on customer specification – production, from the first welding seam to the complete conveyor system from one source.

Whether in conjunction with containers, drying systems or conveyor belts, we will find the right solution.

Silo and bunker filling

Rigid spiral conveyor systems Type SG

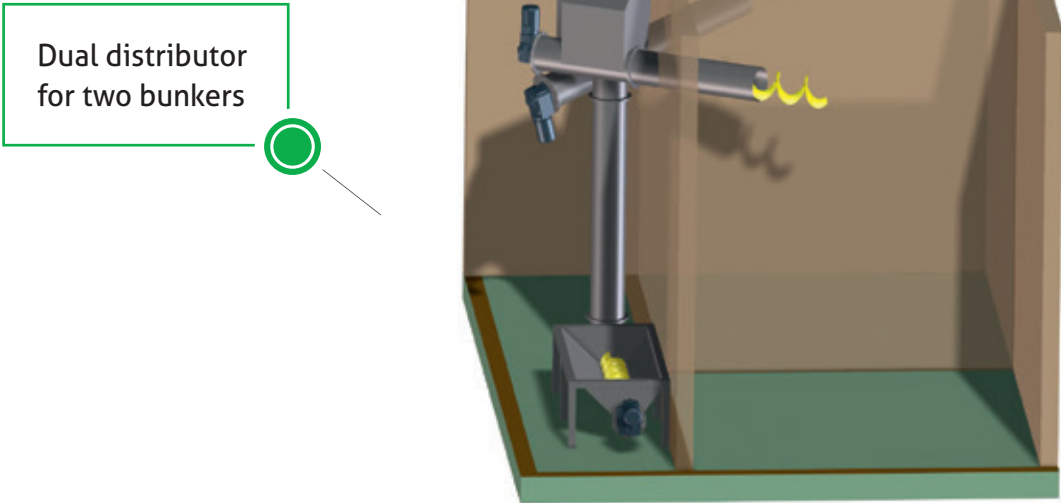

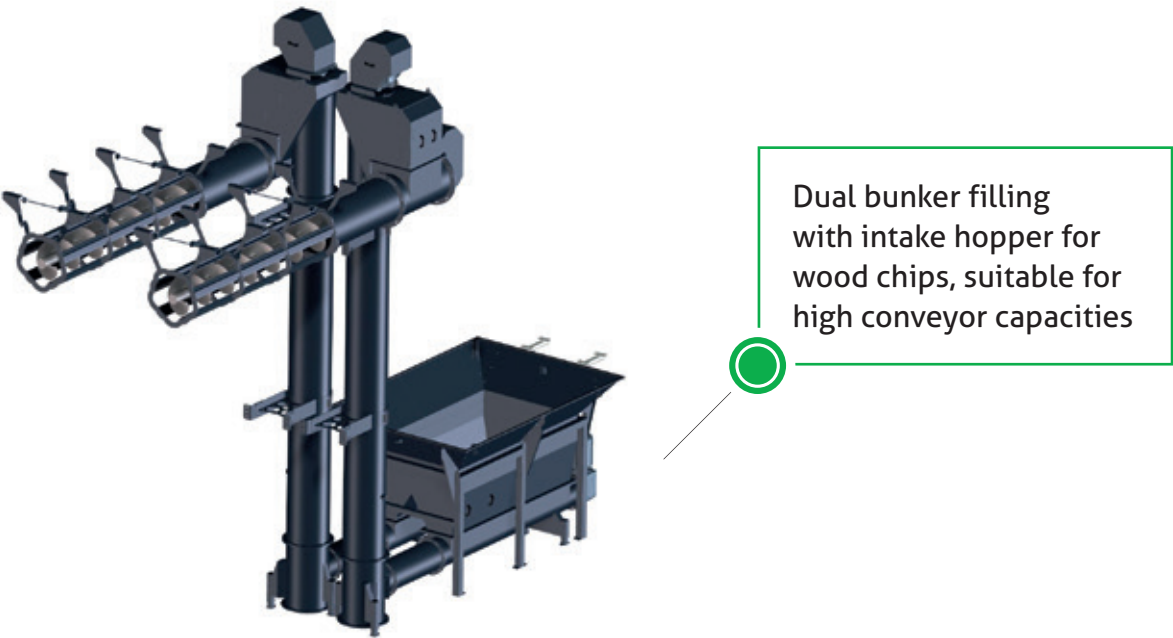

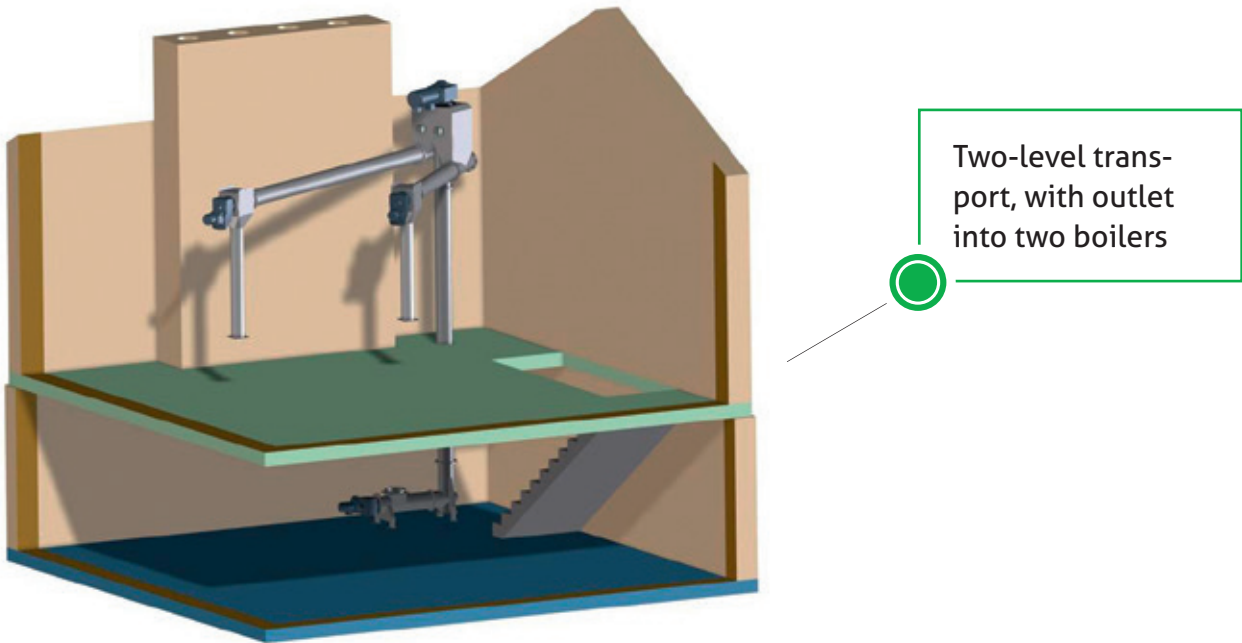

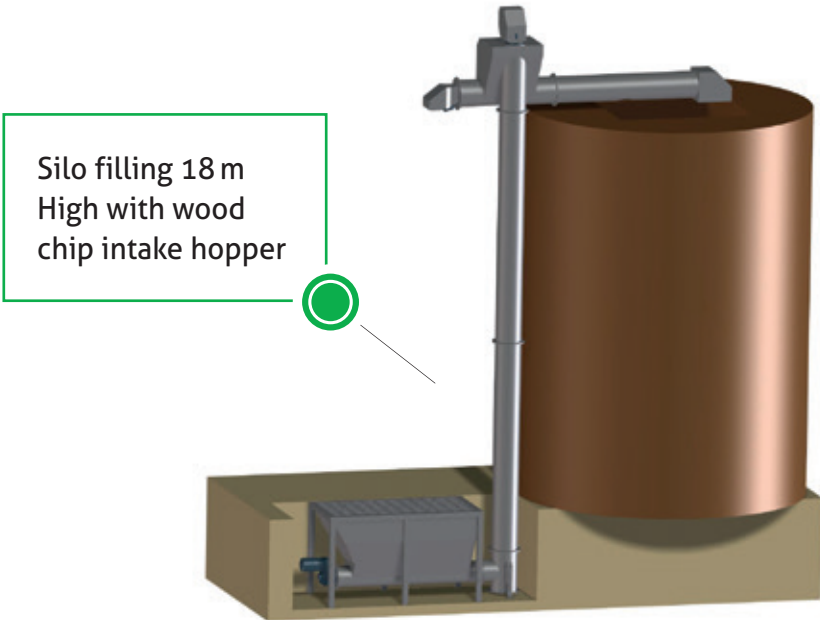

04
—
05

- Vertical transport
- Low speeds
- Standard-compliant design
- Low noise
- Planning customized based on customer specifications
- High transport capacities
- Transport wood chips, alternate fuels, problem materials like fibers, films, recyclables
- Transported material does not jam because it evades the screw in the conveyor pipe
- Solutions for special applications, L-shaped or Z-shaped variants (depending on transported material)

*We let ourselves
be inspired.*
